

CLASS 9 CHEMISTRY

Official Punjab Curriculum & Textbook Board (PCTB) Syllabus - Course Code: CHM-9-SNC

Single National Curriculum (SNC) / BISE Gujranwala Examination Standard Edition

COMPLETE CHAPTERS & TOPICAL CURRICULAR COVERAGE

- [1] Ch 1: Fundamentals of Chemistry (Branches, Atomic Mass, Empirical/Molecular Formula, Mole & Avogadro)
- [2] Ch 2: Structure of Atoms (Rutherford Model, Bohr Atomic Theory, Electronic Configuration, Isotopes)
- [3] Ch 3: Periodic Table & Periodicity (Groups & Periods, Periodic Trends: Ionization Energy, Electronegativity)
- [4] Ch 4: Structure of Molecules (Ionic, Covalent, Coordinate Bonds, Intermolecular Forces)
- [5] Ch 5: Physical States of Matter (Gaseous State: Boyle & Charles Law, Liquid State, Solid State)
- [6] Ch 6: Solutions (Saturated/Unsaturated Solutions, Molarity, Percentage Concentration, Solubility)
- [7] Ch 7: Electrochemistry (Oxidation & Reduction, Electrochemical Cells, Corrosion and its Prevention)
- [8] Ch 8: Chemical Reactivity (Metals & Non-metals, Reactivity Trends, Inert Gases)

OFFICIAL E-BOOK VERIFICATION & DOWNLOAD PORTAL

This official document is compiled by M. S. Naz High School Academic Wing for matric students preparing for BISE Gujranwala annual board examinations. For complete digital scans and e-book releases, visit the Punjab Curriculum and Textbook Board portal at <https://pctb.punjab.gov.pk/E-Books>.

BISE GUJRANWALA BOARD EXAM BLUEPRINT & ASSESSMENT GUIDELINES

1. Student Learning Outcomes (SLO) Marks Breakdown

- 50% Knowledge-Based Assessment: Direct definitions, mathematical formulas, chemical equations, and textbook laws.
- 35% Understanding-Based Assessment: Conceptual reasoning, comparative reasoning, mechanisms, and cause-effect questions.
- 15% Application & Synthesis: Numerical problem solving, circuit analysis, algorithm logic, and real-world case applications.
- Objective MCQs: 12 to 15 questions directly mapped from chapter summaries and review exercises.

2. MSNS Senior Faculty Top-Scorer Strategy (1000+ Marks Goal)

- Textbook Priority: Board examiners strictly adhere to PCTB textbook wording. Always cite textbook definitions verbatim.
- Diagram Precision: Always use a sharp 2B pencil and clear labels for anatomical, physical, and chemical apparatus diagrams.
- Presentation Rules: Draw double margin lines, highlight key terminology with 604/605 black cut markers, and leave 2 lines between answers.
- Solved Past Papers: Practice past 5-year BISE Gujranwala Group 1 and Group 2 papers under timed exam hall conditions.

3. Campus Science Labs, AI Workstations & Study Circles

At M. S. Naz High School, matric students enjoy hands-on access to our fully equipped physics, chemistry, biology, and computer laboratories. Every practical syllabus experiment is rehearsed multiple times before board examinations. Students also access our 15 TB cloud storage for solved notes, past paper compilations, and model answer keys.
